

## **TENTATIVE CLEANUP PROGRAM REDESIGN STAKEHOLDER TOPICS AND SCHEDULE**

During the cleanup program redesign presentations we indicated the aggressive schedule that we were working under then anticipated the following steps:

- Conclude rollout in January
- Conduct stakeholder input
- Prepare draft legislation by April 2009
- 'Final' stakeholder comments May 2009
- Seek introduction of legislation June 2009

We have decided to revise the schedule to allow for a more effective input process. We remain committed to moving this process ahead on an aggressive schedule but now intend to have draft legislation prepared by early summer, with introduction of legislation by late summer. To conduct stakeholder input sessions for issues prior to drafting legislation we tentatively propose the following topics and schedule:

Topic	Summary Document or Presentation to Stakeholders	Stakeholders Input Meetings
Inquiry obligations	3-13-09	early April
Due Care obligations -required actions -timeframes -audit expectations	3-13-09	early-April
Liability protection- Due care non-compliance consequences	3-13-09	early-April
Release reporting obligations	3-31-09	mid-April
Classification system	3-31-09	mid-April
Remedial obligations -investigation -timeframes -reporting requirements -audit expectations	3-31-09	late-April
Source definition, source removal, source control	3-31-09	late-April
Cleanup criteria proposals -acute screening levels -vapor intrusion -ambient air -soil direct contact -groundwater contact	4-24-09	mid-May
Disclosure obligations	May	
Access provisions	May	
Liability provisions	May	
Enforcement provisions	May	
Source removal incentives	May	

If you have not otherwise indicated specific interest areas please let us know at [deq-rrd-redesign@michigan.gov](mailto:deq-rrd-redesign@michigan.gov), otherwise as documents are prepared for the topic areas they will be forwarded for your review prior to a meeting being provided for input. Details on the meetings will be provided as the stakeholder process progresses.

Thank you for your continued interest in and support for the cleanup program.
